SOARING EAGLE
DATABASE CONSULTING

How is Supporting a HIPAA compliant environment different?

Devon Garbus

HIPAA Requirements

YOU MUST KEEP STRONGER NOTES

You WIll Get AUDITED-> Be Prepared

*Mask ALL data
*Track all updates and who made the changes

Data is precious thing and will last longer than the systems themselves

Tim Berners-Lee -> Inventor of the Internet

PROTECT YOUR DATA
*Constant security checks
*Roles are assigned and followed
*Encrypt Data at rest AND in motion
(Reminder-> Encryption can slow your Application roll outs,
^^^PLAN for the additional time)

You must stay abreast of best practices

*Your entire team must stay abreast of the challenges in data security.

*No one can be exempt from the appropriate compliance training,

*Make sure compliance training renewals (often yearly) are being done.

Train and RETRAIN
